# LIFE CET 2024 'BETTERRENO' topic

- Under Scope B 'Buildings energy data and services'

*Develop, implement and roll-out approaches that use metered data and integrated data collection/processing for Energy Performance Certificates (EPC) towards a) **improving the accuracy and reliability of EPCs** and/or b) **enhancing the market uptake of EPCs**; this includes for example actions that help link the rating of EPCs and the improvement of the rating to the value of a building in view of potential investments; c) **factoring in new aspects to be reflected in EPCs**, such as Indoor Environmental Quality and related elements.*

## Facts & figures

- LIFE Clean Energy Transition
- Energy Performance of Buildings - Creating the conditions to make renovation faster, deeper, smarter, service and data-driven
- Deadline: 19 September 2024
- Up to 1.75 million € EU funding per project
- 11 million € total EU funding

# LIFE CET projects supporting the SRI

**SRI2MARKET**

**iEPB**

**tunES**

- LIFE Clean Energy Transition
- LIFE-2021-CET-SMARTREADY & LIFE-2022-CET-BUILDPERFORM
- 7 projects
- Approx. 14 MEUR EU funding
- 2022 - 2026

# Clustering the LIFE CET SRI projects

SRI uptake in targeted countries & liaison with authorities

Design & development of SRI tools

Improvement of the smart-ready service catalogue

Common communication and dissemination actions

Working Group 2 - LIFE projects cluster

This working group provides a bridge across the LIFE project developments and the SRI policy implementation agenda. It seeks to ensure communication and consistency between the LIFE projects, to link with and support Members States' authorities and to contribute to preparing the policy uptake of the SRI. Relevant LIFE-CET projects are included in this working group.
